

Web Application Security Scan Report

Item	Value
URL	http://testfire.net
Risk Level	Medium Risk
Links Found	26

Open Ports

No open ports found or scanning failed.

HTTP Response Headers

No headers received or header scan failed.

Vulnerabilities

SQLi:

- URL: http://testfire.net/search.jsp

Details: {'found': False, 'results': []}

Form Inputs: query

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/search.jsp

Details: {'found': False, 'results': []}

Form Inputs: query

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/search.jsp

Details: {'found': False, 'results': []}

Form Inputs: query

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/doLogin

Details: {'found': False, 'results': []}

Form Inputs: uid, passw, btnSubmit

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/search.jsp

Details: {'found': False, 'results': []}

Form Inputs: query

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/search.jsp

Details: {'found': False, 'results': []}

Form Inputs: query

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/sendFeedback

Details: {'found': False, 'results': []}

Form Inputs: cfile, name, email_addr, subject, submit, reset

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=inside_contact.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/index.jsp?content=personal.htm>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/index.jsp?content=business.htm>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/index.jsp?content=inside.htm>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_deposit.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_checking.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_loans.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_cards.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_investments.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_other.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_deposit.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_lending.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_cards.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_insurance.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_retirement.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=business_other.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=inside_about.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=inside_investor.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=inside_press.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=inside_careers.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: http://testfire.net/index.jsp?content=personal_savings.htm

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/index.jsp?content=privacy.htm>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/default.jsp?content=security.htm>

Details: {'found': True, 'results': [{'url': "http://testfire.net/default.jsp?content=security.htm?id=1' OR '1'=1' /*", 'risk_level': 'High', 'details': '■ Potential time-based SQL Injection detected!', 'payload': "1' OR '1'=1' /*", 'mitigation': 'Use input validation and restrict database operations.'}]}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/index.jsp?content=security.htm>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/disclaimer.htm?url=http://www.netscape.com>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

- URL: <http://testfire.net/disclaimer.htm?url=http://www.microsoft.com>

Details: {'found': False, 'results': []}

Recommendation: Use parameterized queries or prepared statements to prevent SQL injection.

No XSS vulnerabilities found.

CSRF:

- URL: <http://testfire.net/search.jsp>

Details: CSRF protection missing (no CSRF token found in GET form).

Form Inputs: query

Recommendation: Implement and validate CSRF tokens server-side.
